Advanced Distribution System

You'll get in front of the right customers with the right frequency. Our unique, tried and tested distribution system has proven since 2005 to get the best response rate ever. The distribution per area is 6,000, delivered over 2 editions - One drop of 3,000 homes in the first edition, then another drop of 3,000 to a different set of homes in the second edition. The minimum booking term is 2 editions. This provides the widest coverage in the most cost effective way ensuring optimum return on your investment.

Loved By The Locals!

Local residents have been receiving our magazines for over 14 years and the response has been fantastic! They really look forward to each issue and just love using the businesses in the magazines. In short, we're the widest read publications in Lancashire!

It Really Works!

Red Rose Directories are the most established group of magazines in their respected areas and have gained an envied reputation over the past 14 years for providing businesses like yours with great results.

The vast majority of our advertisers stay in edition-after-edition because the magazines work and generate excellent responses for an affordable cost. Many tell us they get more response from our magazines than from any other form of advertising.

"I accurately measure the response rates from all of my advertising and without a doubt 95% of my work comes from Red Rose Directories. You're miles ahead of anyone else...You're the best!"
